Raising children to raise the world

The catalog for ages 0/6
LEARNING IS FUN

World Leader
in Soft Play and Active Play

Welcome
to
wesco®

Since 1975, Wesco's commitment to designing, selecting and manufacturing innovative products for children aged 0 to 6 has been unwavering.

The well-being of children
our driving force

Every day, our teams work diligently to fulfill our corporate mission: For children to awaken the world! We admire the potential of all children and are equally attentive to their individual needs. For us, diversity is an opportunity and it drives us year after year to offer a range of new, innovative products.

The customer
at the center of our concerns

Alongside early childhood professionals, schools, nurseries, we have forged a lasting and trusting relationship for more than 45 years. More than ever, our desire is to maintain our high standards and surpass your expectations by always offering you more innovative products and services.

Tomorrow
is imagined today

We are all mobilized to take care of the future of children. Every day our choices are guided by our values: offering creative products, reducing our impact on the environment, raising children's awareness of the challenges of tomorrow and living well together... Continuous improvement is the heart of our approach

Relaxing area

White furniture for a better reflection of light patterns!

The colours created by the light patterns allow children to experience unique moments, awakening their senses so that they develop improved body awareness.

Covered in comfortable, resistant and ultra-safe vinyl fabric for intensive use and easy cleaning.

High-density foam (1,5 lbs/ft³) will not sag over time and does not pose any injury risk to children.

A really cosy space, created in the blink of an eye!

Safe: highly resistant vinyl fabric for intensive use in communities.

The thick foam walls (2 3/4") dampen noise and promote a renewed sense of calm.

Easy to clean: wipes clean with a soft cloth or sponge, and cold soapy water

Saves space: the cabin can be dismantled and stored flat!

Sensory motor skills

Encourage movement *through sensory experience!*

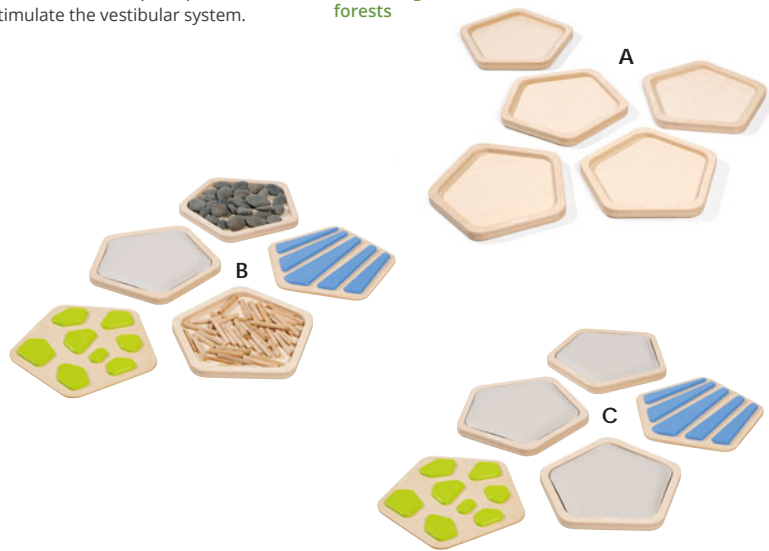

Through touch, the child puts words to the feelings they experience, boosting their language learning and exchanges with others. A great source of sharing and discovery!

Stimulate tactile perception.
Stimulate the vestibular system.

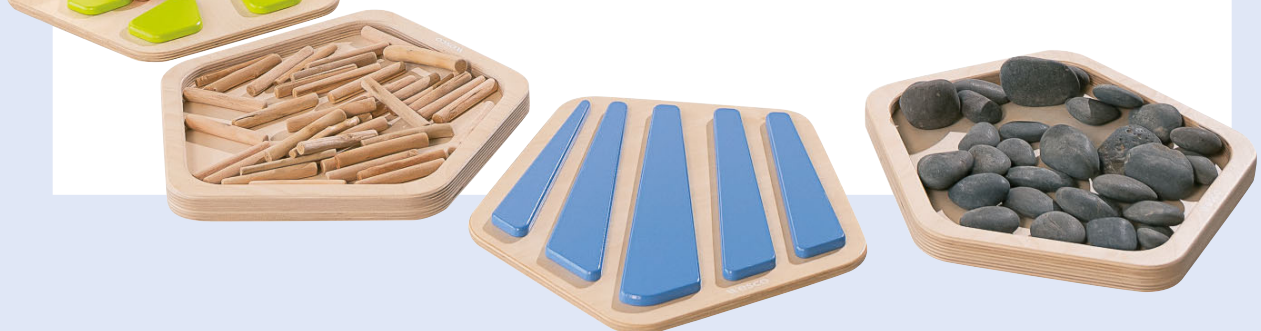

From eco-managed
forests

SENSORY WOODEN TILES These wooden tiles can be placed side by side to form the suitable sensory path(s) for each need by adding natural materials such as sand, leaves, feathers and more. Touch, discover and smell: these sensory tiles encourage children to become aware of their body and improve their balance by stimulating tactile awareness through the hands or feet. Tile: L: 13 1/2" - W: 13 1/2". Made from varnished PLYWOOD. Washable using a soft cloth in cold soapy water. Indoor use.

Ideal for flexible classrooms

+ 18 months
Basic FLOOR SEAT This chair invites children and adults to sit comfortably on the floor for individual and group work. Its practical comfortably on the floor for individual and group work. Its practical vinyl fabric cover is surface washable to eliminate pen or marker stains in a flash. H: 17" - Seat width: 15 3/4" - Seat H: 4". Made from VINYL COVERS, washable using a soft cloth in cold soapy water. Fitted with an anti-slip base. Choice of colours: GREEN/LIGHT GREEN (169) - BLUE/LIGHT BLUE (218) - LIGHT GREY / IVORY (181) - ORANGE/LIGHT ORANGE (220)

59 589 each

A symbol of nature, green comforts and calms the mind.

Blue, a symbol of water and sky, is known to help manage stress and anxiety.

Beige reminds us of wood and lends a warm and luminous hue.

Grey has a soothing and refreshing presence. Combined with other colours, it creates a relaxing environment.

BASIC range

Natural colours

For a soft and soothing atmosphere

Create a world of stimulation, conducive to a more relaxing experience. How? By combining our wooden furniture with our vinyl covered motor and reading units, all in soft and harmonious colours.

Hygienic: the vinyl fabric is easy to clean with a cloth or soft sponge and cold soapy water

Tough: high-density 1,5 lbs/ft³ foam interior that does not sag over time

No risk of injury: foam covered with vinyl fabric

Choice of colours:

UBLO BARRIER

The "featherweight" barrier!

Our decorative and cleverly designed Ublo barriers reinvent partitioning for spaces and playpens. Suitable for both indoor and outdoor use, they're the perfect combination of attractive functionality with their lightweight design, rounded lines and soft colours. Designed to make life easier for supervisors, they fold away easily accordion-style, for optimal space saving thanks to the compact dimensions.

Lightweight: (fewer than 8,8lbs) and compact (L: 37 3/4" - H: 27 1/4")

Easy to move

Fully washable

Maximum safety

Anti-pinch system for finger protection

No sharp components likely to injure a child

Slatted openings ensure constant visual contact

between children and supervisors

Can be attached to the floor

(fixings not supplied, dependent on floor type)

100% recyclable.

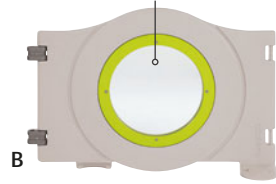

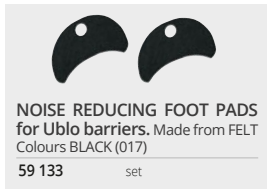

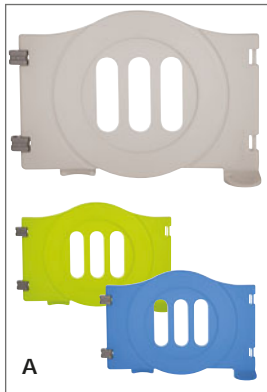

Activities on both sides!

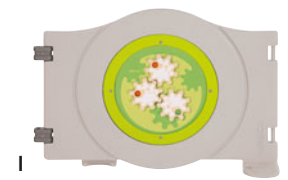

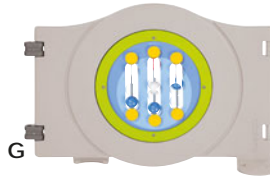

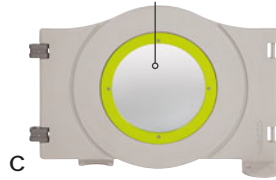

folds like a concertina along a wall

Transparent : to say hello from the window!

Mirror : to play with its reflections!

Decofoam range

As children sit, crawl and jump on these Decofoam play items, they exercise both their imagination and their motor skills.

Self-identification, body awareness and expression using language form the basis of the essential educational benefits of the Decofoam range. Children identify with the characters driving a racing car, riding animals, etc. The larger Decofoam items can be used by several children at once!

Ball pools

2-YEAR GUARANTEE
except ball

Complies with standard
EN 1021-1 and 2:
flammability of filled
furnishings

Phthalate-free.

+ 18 months
for use under adult supervision

Children love jumping into, playing and relaxing in our ball pools. Through play, they become aware of their bodies, develop motor skills and learn to play together.

Resistant:

Highly resistant vinyl fabric.

1,5 lbs/ft³ foam: long-lasting and durable, will not lose its shape.

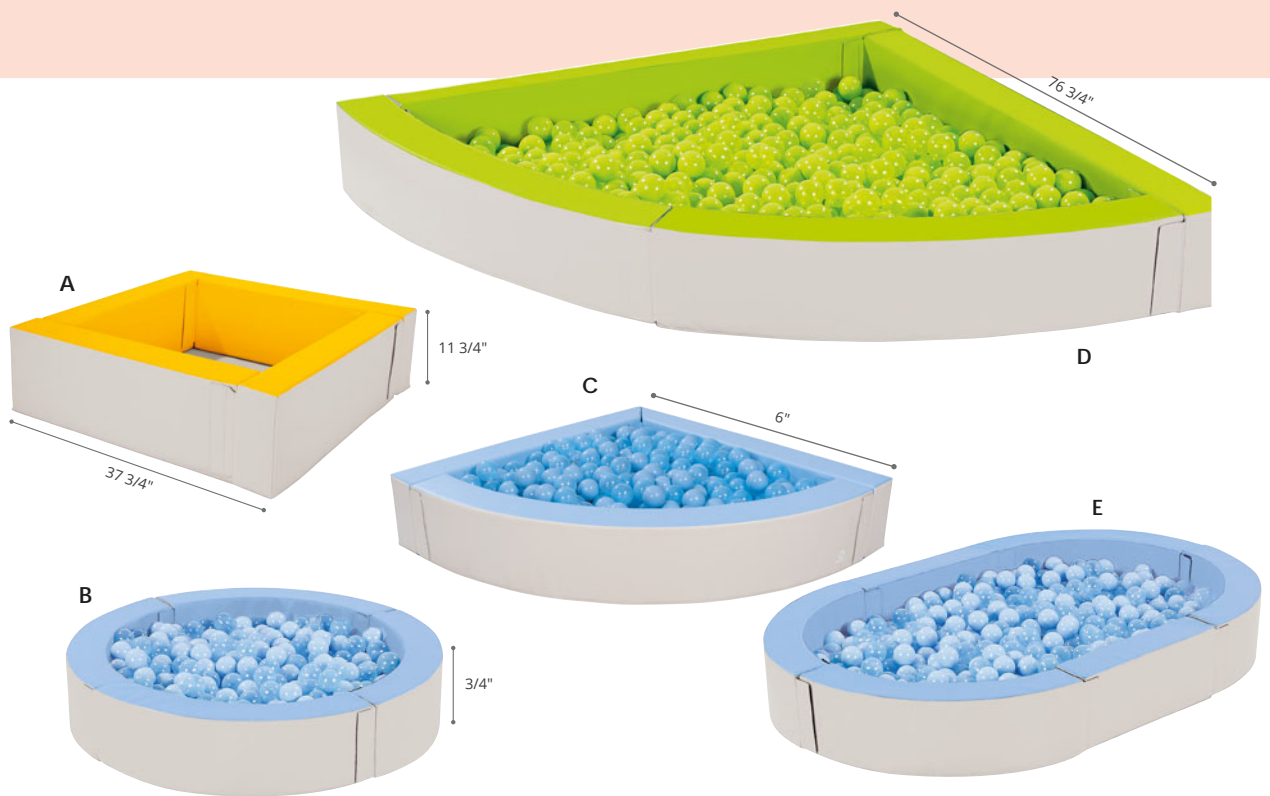

Hygienic: the vinyl fabric is easy to clean with either a soft cloth or sponge and cold soapy water. Each ball pool has a base mat.

Quick to install: Each component is fitted with Velcro strips from top to bottom (except the "Lotus" range which has zip fastenings).

Inclusive SOLUTIONS

Ball pools have benefits that are therapeutic, relaxing and sensory, with a kinaesthetic aspect (position and movement of the various parts of the body). Ball pools also allow development in an unstable but safe environment.

			With balls set	Without balls set

TINY TOT Modules range

1 to 3 years
for use under adult supervision

Children need movement!

Quality first!

Crawl, climb, slide, balance...

Children can move around our courses in complete safety, designed to withstand thousands of children!

New Mini Tiny Tot modules

Especially for small spaces

Very resistant vinyl fabric, easy to clean.

1,5 lbs/ft3 foam: long-lasting and durable, will not lose its shape.

+ **Firm, comfortable foam:**
1,5 lbs/ft3 density polyether foam for greater longevity over time: does not sag.

Hygienic:
the vinyl fabric is easy to clean with either a soft cloth or sponge and cold soapy water.

Very strong fabric:
Vinyl fabric on a jersey support, stitched all round with extra strong nylon thread. This covering does not lead to friction burns.

Highly-resistant stitching:
All our modules are sewn, with no zip fastenings, to avoid injuring children. Our "embroidered" stitching seals the modules, and prevents children from getting inside them.

Can hold up to 120 balls.

MINI TINY TOT module KIT Diving Consists of:
 1 pool with balls, 1 two-step module, 1 brick, 2 slopes,
 1 corner and 1 cube.

SENSORY TINY TOT range

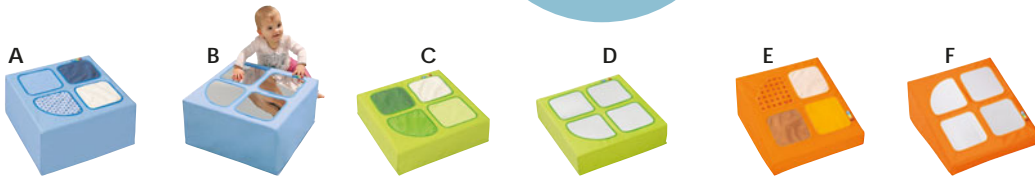

1 to 3 years
for use under adult
supervision

2-in-1: motor and sensory courses!

In addition to our Tiny Tot modules, the Sensory Tiny Tot items offer a sensory, visual and tactile experience in the discovery of different materials.

INCLUSIVE solutions

Tactile products sharpen sensations for sight-impaired children or those with reduced feeling in their fingers.

SENSORY Tiny Tot modules Consists of: 1 half-cube and 1 cover. Made from 1,5 lbs/ft³ density POLYETHER FOAM covered in a jersey-lined VINYL FABRIC and VARIED FABRIC. Washable at 86 °F (removable cover). Indoor use.

				SENSORY REPLACEMENT COVER

 L: 66 1/4" - W: 66 1/4". Indoor use.

65 384 set

From birth
4 DENSITY TILES The different densities of the 4 density tiles are a chance to adapt and readjust motor skills. Used in many ways (loose, organised in a flat or upward course), they create a multitude of educational exercises based around the development of recognition and fine motor skills. Each density is defined by a specific colour. Consists of: 1 very soft blue block (65 N), 1 soft yellow block (110 N), 1 firm light orange block (190 N) and 1 very firm light green block (300 N). L: 19" - W: 9 1/2" - th: 2 1/4". Made from VINYL COVERS. washable with water. Indoor use.

62 855 pack of 4

In 1984, Wesco was the first designer and manufacturer to offer a range of foam motor skills modules. Designed in collaboration with occupational therapists, this range encourages the expression of childhood characteristics: spontaneity, naturalness, the need to experiment, to move... Used singly or in a number of different combinations, BLOCmodules offer a multitude of possibilities, allowing children to master their motor skills using their whole body, develop their movements, take risks and sequence motor skills actions, etc.

**Christelle,
Designer at Wesco**

While crawling, stepping over, balancing and developing a sense of security and self-confidence, children over the age of 3 learn to master their motor skills and acquire initiative and perseverance using these modules that are designed, developed and made in France!

PLEASE NOTE: this motor skills equipment should be used for supervised educational activities, independently or under the guidance of qualified professionals

BLOC MODULE Range

The first motor skill modules for children aged 3+!

Very resistant vinyl fabric, easy to clean.
1,5 lbs/ft³ foam: long-lasting and durable,
will not lose its shape.

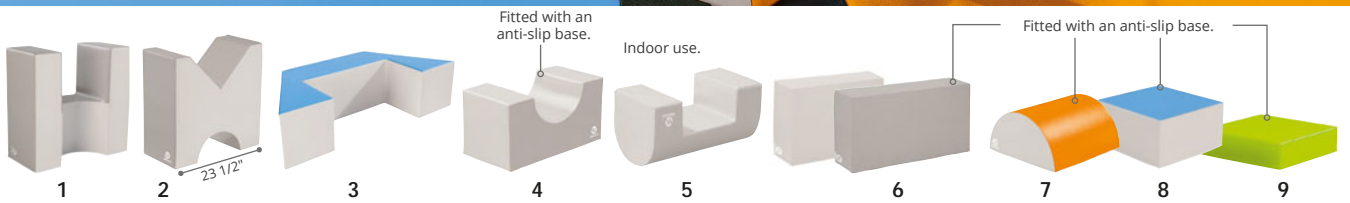

Firm, comfortable foam: 1,5 lbs/ft³
density polyether foam for greater
longevity over time: does not sag.

Ultra resistant seams: All our
modules are sewn, with no zip
fastenings, to avoid injuring children.
Our "embroidered" stitching seals
the modules, and prevents children
from getting inside them.

Highly resistant fabric: Vinyl fabric
on a jersey support, stitched all
round with extra strong nylon thread.
This covering does not lead to friction
burns in children.

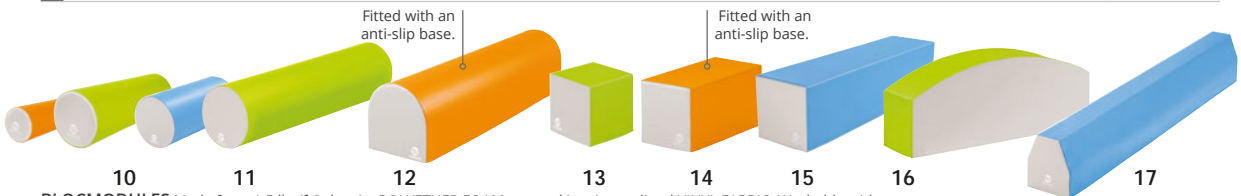

Hygienic: the vinyl fabric is easy to
clean with a soft cloth or sponge and
cold, soapy water.

BLOCMODULES Made from 1,5 lbs/ft3 density POLYETHER FOAM covered in a jersey-lined VINYL FABRIC. Washable with water.
Indoor use.

CLIMB UP range – Climbing walls

Emmanuelle Langlois,
Psychomotor Therapist.

By climbing, children learn to steady themselves, find their balance and develop hand-eye coordination. It also allows them to conquer their fears and take measured risks, enabling them to trust their body and better control it in any situation.

2 CLIMB Up Panels KIT Consists of: 1 large panel and 1 small panel. Large panel: W: 30 1/4" - H: 46 1/2". Small panel: W: 24" - H: 23 1/2" - th: 3/4". Made from varnished PLYWOOD. Delivered flat-packed, do-it-yourself installation. Supplied without wall fixings.

58 553 set

Set of 2 CLIMB Up cross pieces
L: 21 3/4" - W: 4 3/4" - th: 3/4". Made from Lacquered WOOD. Delivered flat-packed, do-it-yourself installation.

58 555 pack of 2

Set of 4 CLIMB Up holds L: 7" - W: 1/4". Made from CORK.

58 563 pack of 4

Set of 2 CLIMB Up rope grips
Made from PLASTIC. Self-assembly.

65 006 pack of 2

Safe area:
without climbing elements for children under 3 years.

new colours EXPLOR'ACTION range

3 to 6 years
for use under adult
supervision

Diverse motor skills experiences both indoors and outdoors.

Create a range of courses and easily adapt the desired level of difficulty by moving the pieces around on the ground or in the grooves in the "rock" pieces. This versatility allows you to create an infinite range of courses, giving your children a new adventure every day. EXPLOR'ACTION blocks enable children to master their motor skills and acquire confidence, the ability to take the initiative and develop confidence in their physical abilities.

Christelle Boutin,
Designer at Wesco

Designed to be used inside and outside, the components in the EXPLOR'action range offer various possibilities for climbing, crawling, working on balance, etc. Made from recyclable plastic, they combine three unique advantages: they are lightweight, robust and flexible!

Above/below courses with the board/tunnel

Chaotic course (ascending or descending) with the sloped boards

Non-slip, grooved surface

Use of the sloped board (arch) with the housing

100% recyclable.

Safety:

For added safety, the blocks in this range do not have any sharp edges.

Very strong:

The blocks in the EXPLOR'action range support the weight of several children or an adult.

Lightweight:

The blocks can be moved around by children.

Easy to assemble:

The blocks link together easily and firmly without the need for additional connecting parts that could get lost or even be hazardous.

Hygiene:

The blocks are easy to clean and can be disinfected.

Durable:

Manufactured from materials suitable for outdoor use (composite wood, high-density anti-UV treated plastic, aluminium).

Strength

Modularity

Designed for use indoors or outdoors, the "Alfresco" blocks are easy to assemble and changed at will. They will allow children to develop their motor skills, which will improved self confidence, encourage initiative and help them beleive in themselves.

Durable: Rotomolded in Canada from high density and high strength plastic.

Safety

For added safety, the blocks in this range have no sharp edges.

Very strong

The blocks in the Alfresco range are sturdy and will support the weight of several children or an adult.

Light

The blocks are light and can be moved by children.

Hygienic

Blocks are easy to clean and can be disinfected.

Easy to assemble

The blocks link together easily without the need for additional connecting parts.

100%
recyclable.

Anti-slip grooved surface

ALFRESCO SLOT-IN TUNNEL This attractive component is extremely versatile. On its own it forms a simple tunnel which children can pass over or through. When used with beams, it becomes a bridge that children can cross in several ways: flat, on stairs or slopes. L: 31 1/2" - l: 23 1/2" - H: 23 1/2". Made from thick POLYETHYLENE.

12 251 each

One side for a horizontal beam, the other for a slope

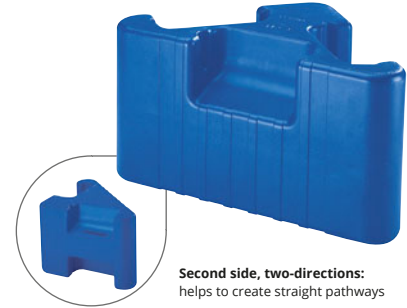

ALFRESCO H SHAPED SLOT-IN BLOCK This block is reversible and can be used to hold beams in a horizontally or a sloping position. L: 23 1/2" - W: 11 3/4" - H: 17 3/4". Made from thick POLYETHYLENE.

04 711 each

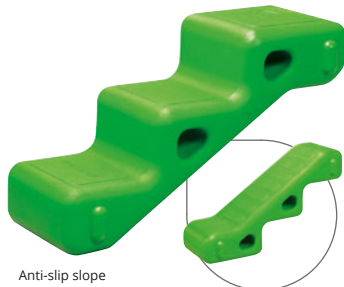

Three-directional on one side:
Helps to create a sloping pathways

Second side, two-directions:
helps to create straight pathways

ALFRESCO Y-SHAPED SLOT-IN BLOCK This versatile fitting is essential for creating three-way, angular and zigzag layouts. L: 25 1/2" - W: 25 1/2" - H: 17 3/4". Made from thick POLYETHYLENE.

04 712 each

Anti-slip slope

ALFRESCO STAIRS/SLOPE This block can be used at the start or end of an obstacle course. It easily slots into the H or Y shaped blocks whichever way up it is turned to become a set of 3 stairs or a slope. L: 29 1/2" - W: 11 3/4" - H: 17 3/4". Made from thick POLYETHYLENE.

00 828 each

ALFRESCO BRIDGE These can be used on the ground, with a wheel or on a beam, either as obstacles or to make a rocker see-saw. L: 15 3/4" - W: 11 3/4" - H: 11 3/4". Made from thick POLYETHYLENE.

04 705 each

ALFRESCO

3 YEAR GUARANTEE

MADE IN CANADA

Complies with standard
NFS 54-300 :

Phthalate-free.
Comes with a teacher's
leaflet

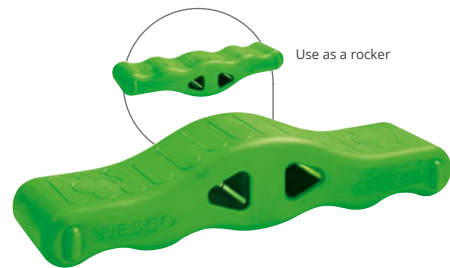

3 to 6 years
for use under adult supervision

A

A ALFRESCO STRAIGHT BEAM Rigid and very robust, it is easy to position in the fittings and can hold mini-bridges. L: 47 1/4" - W: 11 3/4" - H: 6". Made from thick POLYETHYLENE.

04 704 each

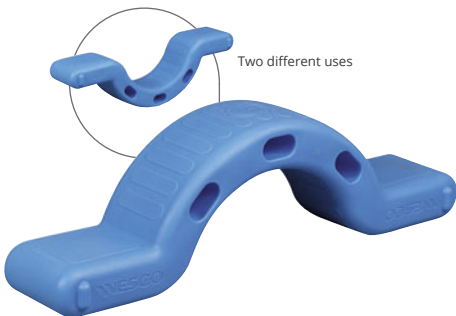

Use as a rocker

B

B OXYGEN WAVE BEAM Derived from the beam, this block can be used on its own or between two slot-in blocks. On one side there is one large wave and on the other side there are several small waves. When placed on the ground it can be used as a small seesaw. L: 47 1/4" - W: 11 3/4" - H: 9 3/4". Made from thick POLYETHYLENE.

00 829 each

Two different uses

C

C ALFRESCO CURVED BEAM This beam can be used on its own (placed directly on the floor) or as part of a course (with connecting pieces). Used independently it forms either a large arch for children to climb over, or a large seesaw. When used with other blocks children can create challenging ascending and descending courses. L: 59" - l: 11 3/4" - H: 17 3/4". Made from thick POLYETHYLENE.

12 250 each

D ALFRESCO TUNNEL BEAM This item is a combination of the beam and the wheel. When positioned between 2 slot-in blocks, it can be crossed in 2 different ways: through the inside (like a tunnel) or over the top. The top obstacle's height varies depending on which way up the beam is placed. It can also be used on its own as a see-saw. Equally, depending on the way it is positioned, it can be used by children of different sizes. L: 47 1/4" - W: 11 3/4" - H: 23 1/2" - Ø of hole 15 3/4". Made from thick POLYETHYLENE.

00 875 each

E ALFRESCO WHEEL This wheel is fitted with little studs and is one of the essential items in this range. It can be used in several different ways. On its own, you can steer it and roll it along. When stacked with other wheels to form a larger unit, held together by its built-in assembly studs, children can hide inside. Alternatively, when supported horizontally by two mini-bridges, children can wriggle through it. th: 11 3/4" - Aperture Ø 15 3/4" - overall Ø 27 1/2". Made from thick POLYETHYLENE.

04 713 each

The asymmetrical design allows 2 different tunnel heights.

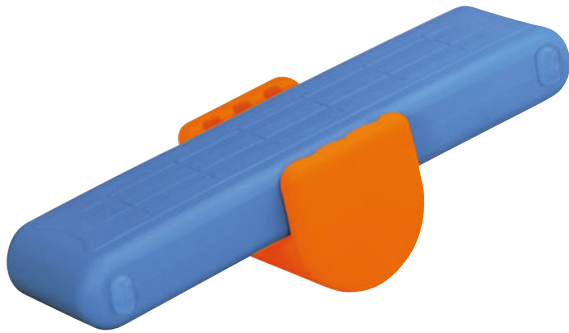

D

E

ALFRESCO SEESAW KIT Consists of: 2 pieces: 1 bridge, 1 straight beam. Floor space: 47 1/4" x 15 3/4". Made from thick POLYETHYLENE. Comes with a teacher's leaflet

Phthalate-free.

2 to 6 years
for use under adult supervision

The TACTIK Scogym range has been devised to meet the needs of children to test their limits and conquer their fears. These experiences will enable children to gain confidence and attempt new course layouts. It has been designed to develop a child's sense of balance, stimulate their sense of touch, observation, co-ordination and to strengthen muscles. The range is fully modular enabling group learning processes.

- +** The wooden and plastic modules are compatible!
- Stable:** guaranteed due to wide, single-piece blocks.
- Sturdy:** specially designed for motor skills activities and intensive use.
- Safe:** non-slip base, no sharp edges.
- Hygienic:** easy to clean with a cloth and our cleaning product.
- Easy assembly:** simple clip-on fixing.
- Highly modular:** for building courses.

TACTIK SCOGYM range

Enjoy new sensory experiences!

Level 1 :

Very close to the ground, these motor skill exercises provide reassurance for the youngest children. To be played preferably with bare feet in order to enhance sensation and body awareness.

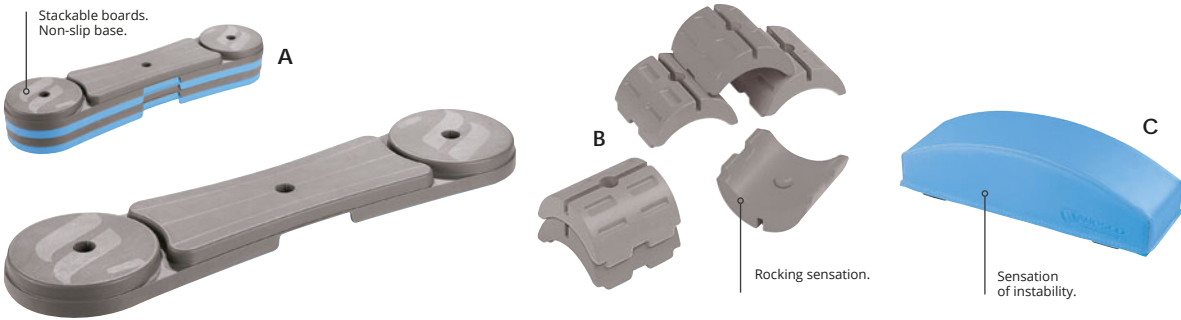

Level 2 :

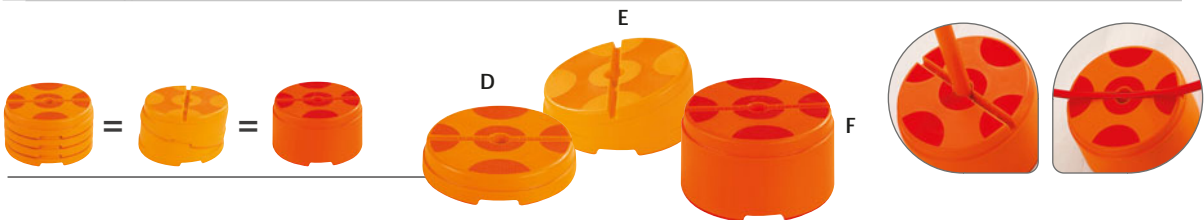

Go up, down, over... The circuits are higher and more undulating to practise motor skills.

Level 2: higher circuits with sloping surfaces for progressive difficulty

A TACTIK Scogym BOARD	L: 34" - W: 8 1/4" - H: 1 3/4".	●● Choice of colours: BLUE (002) - GREY (006)	41 215	each
