Sensory cabins

for use under adult supervision

A really cosy space!

Based on the benevolent education pedagogical approach, the cabin provides a space for children to calm down if they are agitated or can be used for sensory discovery. It provides a safe space, to improve concentration, contemplation and learning.

4

Safe: highly resistant vinyl fabric for intensive use in communities. The thick foam walls (7 cm) dampen noise and promote a renewed senseof calm.

Easy to clean: wipes clean with a soft cloth or sponge, and cold soapy water or our cleaning product (ref. 43055).

Saves space: the cabin can be dismantled and stored flat!

A SENSORY CABIN The thickness of the foam reduces noise and protects the child from injury. The vinyl fabric is suitable for intensive group use and is easily cleaned. Consists of: 4 walls with a thickness of 7cm, a 4cm thick floor mat and a vinyl covered roof. L: 120 cm - W: 120 cm. Made from FOAM and COATED FABRIC. Washable with water. Indoor use. Delivered flat-packed, do-it-yourself installation.

53 916 each

SENSORY CABIN KIT Consists of: 1 foam cabin, 1 fibre optic light source, 150 x 1.5 m fibre optics, 1 light-up pebble, 1 coloured light-up ball and 1 ocean projector.

56 534 set

ESENSORY IGLOO An original, fun and sensory creation! What a strange cabin – the perfect place to hide, imagine, dream up stories and play with the transparent areas. The child feels reassured and protected in this dome-shaped space where sound diffusion and light reflections take on new dimensions, leaving the child speechless and captivated by this sensory, soothing spectacle. Inflates with our inflator-deflator (ref 42 402). Ø 170 cm – H: 100 cm – Interior Ø 140 cm. Made from PLASTIC. Washable using a soft cloth in cold soapy water. Comes deflated with a fabric storage bag and 1 self-adhesive repair patch. Colours WHITE (001)

57 359 each

SENSORY IGLOO KIT Consists of: 1 igloo, 100 strands of multicoloured fibre optics, 1 light source and light balls.

69 491

set

et

By walking barefoot on the sensory tiles, touching them with their little hands or watching them glow in the dark (for the luminescent versions), children can discover new sensations and develop their sense of touch and sight. These different sensory experiences encourage children to express their feelings and interact with others. A great source of sharing and discovery!

new

Encourage movement with a sensory experience!

Luminescent fabric: when exposed to natural daylight, the fabric stores the light and then releases it in the dark. It glows according to the principle of phosphorescence (ideal for sensory areas, such as Snoezelen environments).

Washing: the removable cover can be machine-washed at 30°C

Safety: this product is mains rechargeable for a battery life of over 8 hours. Cable pass-through under the table for easily recharging the LED unit. Non-slip

Easy to use: remote control supplied to change the colour and speed (continuous, flashing, increasing intensity, etc.).

Hygienic: easy to clean. For indoor and outdoor use (indoor storage only).

Sensory activity light-up tables

This sensory table diffuses a soothing soft light and creates a conducive environment for concentration (particularly for children with special needs). By capturing their attention, it encourages them to handle the sensory objects (transparent, opaque, etc.) and understand how light can interact with them. This sensory table offers a large playing surface where children can manipulate the objects and develop their creativity, whether alone or with others.

supervision

These little accessories commonly called «fidgets» are an excellent way of focusing the attention. They have a positive effect in helping concentration in children and adults suffering from ADHD (attention deficit disorder with or without hyperactivity) or ASD (Autism spectrum disorders).

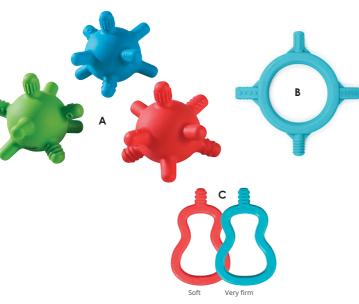

Oral motricity Unique laclile exploration!

This range of chewing products is perfectly suited for auto-stimulation and regulation for all those in need of oral sensory stimulation. Mouth and jaw motor activity is recommended to minimise eating problems and encourage language development. These tools facilitate tongue and jaw movements. The textured surfaces can be used to stimulate the gums, palate and tongue.

A From birth

FIDGET TEETHING BALLS These 3 coloured teething balls with large nubs are easy for children to pick up. Depending on the teething stage, they can chew on 9 differently textured spikes. Little ones like to twist them, throw them and roll them, offering hours of calming play. Ø 9 cm. Made from SILICONE. Washable Dishwasher safe.

NATURE barriers

Timeless

Made from solid beech, the Nature barriers have a clean, understated design. They're the same height too, ensuring they'll remain part of your structure for many years to come.

do-it-yourself installation.

From birth for use under adult supervision

NATURE barriers Timeless

Solid

Ultra-resistant.

Safe: non-harmful surface with rounded corners and no sharp edges.

Easy to store with the accordion-style folding system.

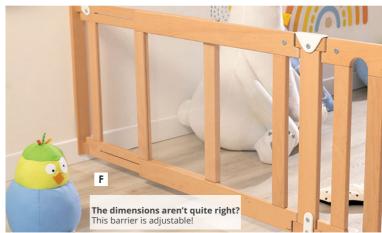

Exceptionally stable thanks to the dual-material metal legs covered in soft plastic.

Easy to assemble.

From eco-managed forests Responsible delivery. Recyclable materials.

1 - Choose your barriers

In metal to add magnets

Transparent

F Extendable from 83 to 130 cm.

Please note, hinged single connector included for the right-hand side. Comes with feet.

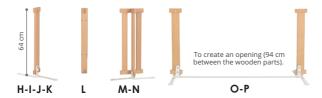

Nature PARTITION BARRIER Made from SOLID BEECH WOOD. Washable with a sponge. Feet not included. Delivered flat-packed, do-it-yourself installation.

How do you calculate the length of your barriers?
Nothing could be simpler! Add 8 cm to each single
connector and 4 cm for a wall connector, 18 cm
for T connectors and 108 cm for a large
passageway connector, bearing in mind that you
must have a connector on each side of the barrier.

Plastic **PARTITIONS**

+ 3 years

Create temporary spaces in the blink of an eye!

Square or rectangular, our Modular Partitions have a common width of 61cm, so they may be used together to easily suit your requirements.

Christelle, Designer at Wesco

Lightweight and easy to set up, Modular Partitions are ideal for creating separate spaces or for temporary activities.

Lightweight: Easy to move **Solid:** Frame made of rigid and highly resistant ABS

Safe: The panels are securely clipped to the frame

Modular: The connecting clips can be used to link several partitions

Stable: Weighted feet for increased partition stability

Customisable: The rigid panel partitions can be used for artwork

Choice of 2 sizes: 61 x 61 cm or 61 x 125 cm Choice of 3 colours:

Complies with standard EN 1930

Delivered flat-packed, do-it-yourself installation.

Depending on the layout of the space, 2 attachments are available, either for fixing within a doorway or attaching to the wall.

Safety: children do not need to step over a threshold. Ideal for people in wheelchairs or for wheeling through a special evacuation bed. Anti-pinch gate. The transparent design provides optimum visibility for easily keeping an eye on the children's area.

Ease of use: the support wheel at the bottom of the gate ensures stability when opening. Can be opened with one hand

10 YEAR GUARANTEE

WELL-BEING range 100% solid wood

In high-quality varnished SOLID BEECH.

From eco-managed forests

Sturdy: made of high-quality varnished solid beech with lacquered medium-density fibreboard (MDF) fascia panel for maximum protection.

Safe: silent sliding barrier with opening inaccessible to children. Flat, non-flexible bars spaced 5.5 cm apart to prevent children sticking their heads through.

Practical: moves easily and quietly. Easy 3 step-opening: pull up, push with your knee and slide the barrier.

Hygienic: slatted base to allow the mattress the breathe and adjustable to 2 heights (53 cm and 85 cm).

Quick assembly.

5 YEAR GUARANTEE

DREAMY range 100%

In thick POLYETHYLENE.

Made from 100% recycled and recyclable plastic.

Sturdy: in thick, bite-resistant plastic.

Safety: no sharp edges. Non-flexible bars spaced 6 cm apart to prevent children from sticking their heads through.

Lightweight: easy to move, with or without

Hygienic: fully washable and can be disinfected. Quick assembly.

Can be used indoors or outdoors.

A TOG rating is the value specifying the thermal capacity of a baby sleeping bag. It is generally between 0 and 4. A baby sleeping bag rated less than 1 is fairly lightweight. Those with ratings above 2.5 are considered warm sleeping bags.

The use of the baby sleeping bag is highly recommended until the baby is 2 years old. The sleeping bag allows the child to sleep safely and breathe properly, without the risk of uncovering themselves.

WARNINGS! Do not use if the child can climb and get out of the cot. Do not use in combination with other bedding items (cot duvet for example).

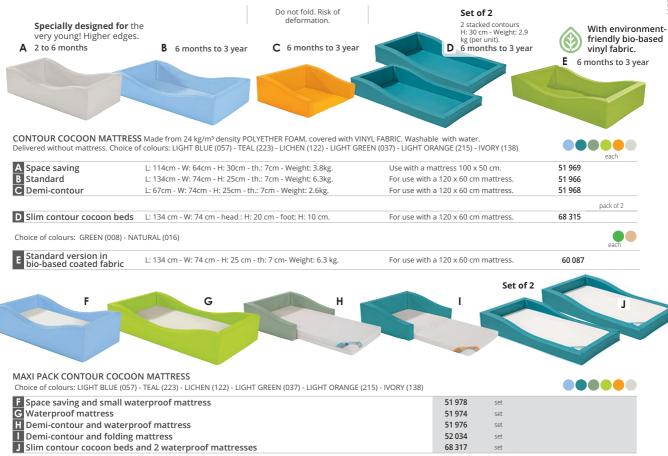

3 YEAR GUARANTEE

Complies with standard XPS 54 045

Phthalate-free.

Ideal for transitioning between a cot and a stackable bed, the contour Cocoon mattress encourages freedom of movement in children: it's easily accessed by very young children who will be able to go to bed and get up independently. Its position at floor level also minimises the risk of falling and so, reassures children.

COCON RANGE

10 YEAR GUARANTEE

TEDDY RANGE

The Teddy bed is robust, comfortable and easy to use, both for the child and their carers. Includes a bedside table and a container so everyone has somewhere to store their things during a nap. Empty inside, its thick plastic envelope design, makes it both lightweight and sturdy.

new Wooden outdoor bed

Sleep in the fresh air and enjoy the benefits of the great outdoors!

Practical: optimum storage, space-saving and stackable up to 5 high.

Hygienic: THe slatted bed base allows the mattress to breathe and provides natural

Safe: no sharp edges likely to cause injuries. Sturdy: Solid Douglas wood is naturally resistant to most insect and fungi attacks.

Linseed oil can be used to maintain the wood.

Choose your dining furniture

in childcare facilities

Furniture must be first and foremost practical to facilitate day-to-day life for staff: easy to install and clean and ergonomic too to ease the strain of repetitive movements, with a central space to help children learn to eat. We focus on comfort, attractive styles and soft colours to create a friendly atmosphere that helps children feel at ease.

in school establishments

A common meeting area, canteens can be particularly noisy. For optimal acoustic comfort, opt for our noise-reducing table tops and chairs with protective pads. The weight of the chairs will be carefully considered for easy movement by children and adults. Our sorting bins and sideboards encourage children to clear the table by themselves.

Safety: 5-point harness and foot-operated brake.

Comfort: retractable front and rear hoods, 4 reclining positions for the rear seat and 2 reclining positions for the front seat.

Practical: folds up easily with one hand and highly manoeuvrable with its fixed or swivel front wheels.

Safety: automatic brake for safe transport, reflective strips for greater visibility in the dark and a 5-point safety belt on each seat. Easy to use: safe folding, requiring 2 hands, swivel wheels for greater flexibility and all-terrain wheels for a better grip. Resistance: resistant, water-repellent, easy-to-clean fabric.

Practical: reclining, adjustable seats, numbered storage container, storage bag, removable sun visor, removable roll bar and a folding, adjustable and removable cover with window to check on the child.

Clever: each child has a seat number with a small storage pocket to keep a comforter, clothes, etc.

QUADRUPLE PUSHCHAIR Unfolded: L: 130 cm - W: 85 cm - H: 108 cm. Folded: L: 110 cm - W: 84 cm - H: 74 cm. Weight: 35 kg. Made from STEEL (frame), PLASTIC (wheels) and FABRIC (cover). Washable using a soft cloth in cold soapy water. For use with a child up to 15kg. Comes with a protective cover and rain cover

A different approach to learning

OUTDOOR crèche and school

Objectives:
well-being, sensory
awareness,
independence,
self-confidence

Creating an outdoor space is a major step towards achieving these goals...

Because nature has so much to offer, we should harness its wealth of resources as teaching aids to instinctively raise awareness of the need to preserve and respect the environment. By using rugged and easy-to-move furniture that blends seamlessly into the natural environment, we can create the ideal natural learning space!

FLEXIBLE classroom

Objectives: self-sufficiency, concentration, taking the initiative and responsibility

This also involves the layout of your space.

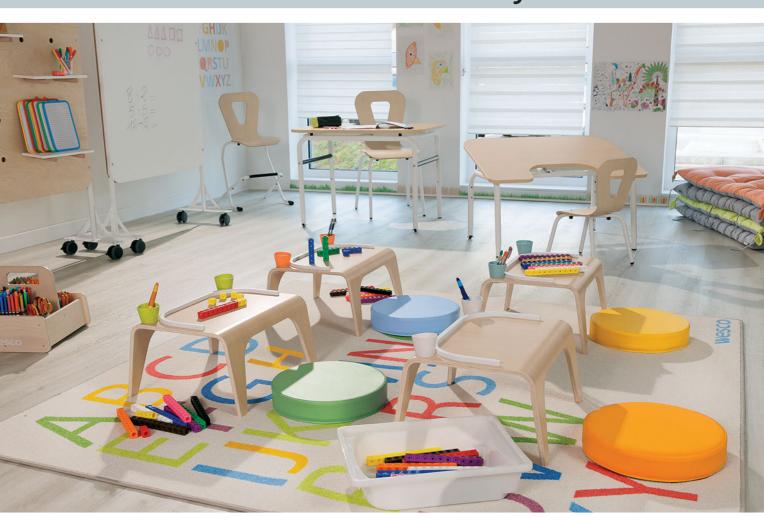

Each child is different so it's important to create a calm working environment that allows them to progress at their own pace. But calm doesn't mean static – quite the opposite! The space is flexible, with mobile, easily rearranged and varied solutions

360° virtual tour – follow the guide! Scan the QR Code and discover how the spaces adapt to your activities in 2 steps and 3 movements.

NATURE CHAIR

Sustainable & natural:

100% solid wood

Nature is the ultimate sustainable chair! Carefully selected solid wood, oversized legs and a flared back for exceptional stability. The Nature chair is designed for intensive, repeated use. It will stand the test of time, to appeal to both adults and children who will put it through its paces!

Eco-friendly:

By choosing solid wood furniture from sustainable sources, you are helping to protect forests and reduce your carbon footprint.

Measuring indoor air quality:

Solid wood does not release harmful chemicals and creates a healthy indoor environment, which is important for those who suffer from allergies.

Anatomical backrest: proper back support

Backward-tilted seat to prevent smaller children from falling

Very stable due to the angle of the rear legs

Strong enough to support an adult's weight

Stackable in piles of 4
Fitted **with glide pads** to prevent damage to your floors.

Two robust

qualities:

solid beech or chipboard

GUARANTEE 15 YEARS

Complies with regulation EN 16121 storage cabinet for group use.

Fire-retardant M3

colours: White or **Natural**

Melamine coated school furniture **10 YEAR GUARANTEE**

Complies with NF/GS standards for Nursery and Education Furniture. More info on http://www.fcba.fr/en

Complies with regulation EN 16121 storage cabinet for group use.

E0.5 classification according to standard EN 717-2 on formaldehyde emissions (irritating volatile organic compounds).

These 19 mm thick panels contain formaldehyde levels below 4mg/100g, which is two times less than the required European standard.

Fire-retardant M3

WESCO school units

Preserve indoor air quality:

The E1 classification warrants that:

- The panels are not chemically treated and are classified M3 fire retardant due to their 19 mm thickness.
- The formaldehyde content is half of the **limit value** set by the European standard.
- The adhesive used to create the chipboard panels is a low VOC adhesive.

When you choose our furniture, you're assured of our commitment...

Ensuring a calm and pleasant school environment:

Guaranteed for 10 and 15 years, our furniture units are certified:

EN 16121

Trapped fingers, impacts, spills, cleanability, general care... we took all these criteria into account and the units have been tested in collaboration with teaching professionals and the FCBA independent Test Laboratory.

Choose to respect the environment

We chose flat-packed delivery to minimise transport volumes and reduce our carbon footprint.

> Less volume fewer delivery trucks less CO2!

And to go one step further, we've created natural baskets made from water hyacinth.

All details page 72

School units in **solid beech**

100% solid wood from eco-managed forests. Baskets made from untreated natural materials.

Toy chests

Game worlds tidied away in the blink of an eye!

Enjoy the easy way of setting up and tidying away children's role-play activities with our range of wooden toy chests. Simply place them on the floor, on a table or on a unit at child height. They will adapt to any space or layout. With their clean lines and ultra-realistic design, toy chests encourage children to reproduce and act out everyday situations, while developing their independence and empathy, and improving cooperation.

new PLUG IT RANGE

A modular, creative and educational system!

This innovative free play concept is designed to cover many aspects of children's development and offers an end-to-end solution for childcare facilities. Simple and easy to install, this system features a variety of modular play elements that can be assembled in countless different ways to provide tremendous freedom and promote creativity.

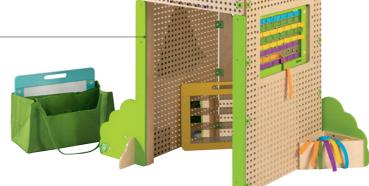

Plug It WALL ACTIVITY PANELS

Use these activity panels to transform your walls into play areas! This set includes 3 game boards: "Ludo", colour association game "Rudirace", and "Ava & Bea" where children need to complete their colourful butterfly. The pieces can be placed wherever children want them, so that the game can be tailored to their height. When they have finished playing, the pieces can easily be tidied away on the shelf and in the basket. Consists of: 3 wall panels, 4 wall mounting bars, 36 game plugs (9 yellow, 9 green, 9 blue and 9 red), 15 fixing plugs, 2 colour wheels, 1 number wheel, 4 wooden caterpillar plugs, 1 felt basket with compartments, 1 felt shelf,

3 fixable game boards, screws and instructions.
Panels: L: 113 cm - W: 60 cm - th: 1.1 cm. Made from WOOD.
Delivered flat-packed, do-it-yourself installation.
71 1098 set

Plug It ACTIVITY HOUSE

Children will constantly be exploring new ways to play with this activity house! This play area offers sensory activities, weaving, magnetic and chalk boards, shapes and colours, and much more. The four sides of the house are an open invitation to experiment, role-play and express their creative streak, whether alone or in groups. The different play elements can be placed in new ways and positions to continually redesign the house. Discovery and creativity are the name of the game! Consists of: 4 panels to assemble, 3 fixing plugs, 1 felt basket with compartments, 1 triangular felt shelf, 1 sensory hourglass, 1 mirror frame, 1 sensory wheel, 1 weaving frame, 20 fabric strips (5 colours), 1 double-sided board (slate/magnetic), 48 coloured translucent plugs (6 colours), screws and instructions. On the floor: Side: 108 cm - H: 130 cm. Made from WOOD. Delivered flat-packed, do-it-yourself installation.

Complementary activities

TEAMPLAY games XXL

group games for the over-5s!

In collaboration with Wilfried and Marie Fort (board game designers recognised for their expertise), Wesco is taking the group game experience to the next level to meet the ever changing needs for children aged 5 and above.

With the TEAMPLAY range, free and spontaneous games naturally evolve towards the first group games with simple rules, but without losing sight of what really matters, i.e. the pleasure of playing together.

- Observe with the senses:

Children strengthen their logical thinking skills and ability to make deductions. Their sense of observation allows them to harness the appropriate skills to succeed in the game.

Develop free expression:

Stimulating role-play activities allow children to express themselves in a variety of ways and give free rein to their imagination. They enrich their vocabulary and enjoy playing different roles.

TEAMPLAY

is designed to accompany children with their development, while meeting specific learning objectives:

Experiment through manipulation:

Tactile exploration awakens children's curiosity. Repeating fine motor skills (screwing and assembling) reinforces their hand-eye coordination and dexterity, while helping memorise the concepts.

- Move their bodies:

Through play, children integrate the relationship between their body and space. They learn to coordinate their movements and continue becoming more independent.

Aim of the game: On this giant course, children need to use their dexterity and deductive skills to place the animals in the correct colour circle and in the corresponding family. Children can play alone or as part of a team, and they can play against the clock or with a set number of moves... It is up to you to tailor the level of difficulty to the children's abilities.

+5 years new TEAMPLAY GAME Colour of the animals

H: 7.3 cm - Ø 24 cm. Made from PLASTIC. Washable with water.

71 590 set

Aim of the game: At the start of the game, each child chooses a coloured base and stands on it. To get the game underway, the first child announces a colour. The other children must then quickly move to a base with a different colour to the one announced. The game continues with the children taking turns to announce a colour. This cerebral gymnastics course enables children to work on their wide-ranging motor skills, recognise colours and develop their ability to take decisions within a very short space of time.

+5 years new TEAMPLAY GAME The colour square

Flat base: H: 7.3 cm - Ø 24 cm. Made from PLASTIC. Washable with water.

71 573 set

Aim of the game: Be the first team to lead their animal home! All teams have to come up with the best strategy for creating their own trail, while avoiding any obstacles that could slow down their

Authors: Marie and Wilfried Fort.

Bricks: L: 9.6 cm - W: 4.8 cm - H: 2.4 cm. Made from WOOD, PAPER, FABRIC AND CORK. **71 355** set

Aim of the game: Who will manage to stack all their blocks according to the indications shown on the die without toppling their tower? Children (on their own or in teams) will need to use strategy, precision and concentration to succeed in stacking all their blocks. The higher the tower, the greater the difficulty. Be careful, because if a tower collapses, the player taking their go will recover all the fallen blocks!

Authors: Marie and Wilfried Fort.

+ 5 years **new TEAMPLAY GAME** Archiboom

Cube: Side: 15 cm. Made from CARDBOARD and VARIOUS FABRICS. **71 358** set

Aim of the game: A cooperative game with no winners or losers. Children can play alone or as part of a team! The player throws the action die and then the coloured die. It is up to the player to pick up the ball in the right colour and complete the challenge shown on the die.

+ 5 years

Pigment'action **COOPERATIVE GAME**

IMPUZZIBLE MULTI-ACTIVITY GAME Sounds and weights

Made from wood, this high-quality multi-activity game promises hours of discovery and learning fun! Like a memory game, children will enjoy putting the pairs back together to form the animals. There are 3 ways that they can do this: by image, by sound or by the weight of the pieces. The game subsequently changes into a skill-based challenge as children try to build the tallest tower. Finally, children can have fun creating amusing characters by mixing and matching the puzzle pieces. Consists of: 20 pieces. Block: L: 12 cm - W: 4.5 cm - H: 2.5 cm. Made from WOOD.

71 109 set

ASSOCIATION GAME Mushrooms

In this original association and memory game, players put the 11 mushrooms of different diameters into the corresponding holes. To help them, they can match the figures in the holes with the number of dots or lines on the mushrooms. Consists of: 1 board and 11 "mushroom" pieces. Side: 13.5 cm - H: 6 cm. Made from WOOD.

70 593 set

NESTING EMOTION FRUIT 5 colourful interlocking fruits (pineapple, pear, lemon, strawberry and grape). Each piece of fruit expresses 2 different,

contrasting emotions, helping children to identify and

express them. The pieces have different textures to stimulate fine motor skills and the sense of touch.

Consists of: 9 pieces (5 pieces of fruit). Pineapple

L: 14 cm - W: 10 cm. Made from PLASTIC.

SENSORY MATCHING GAME Lovely tactile observation and association game with 12 shapes inspired by nature: flowers, leaves, ladybirds, pine cones and more. Children have to recognise and match it with the image printed in the hollow of the real wooden bases. These wear out over time, introducing children to cause-and-effect behaviour and natural changes. Consists of: 12 bases, 12 shapes and 1 bag. Base: Ø 8.5 cm - H: 2.5 cm. Made from WOOD. Supplied in a fabric bag.

C + 4 years

SENSORY LIFT-OUT PUZZLES

Progressive two-step sensory activity. Children must first piece together a puzzle on one of the boards, using their visual and tactile senses. They must then reproduce it, by touch only. Consists of: 2 boards and 16 pieces with 8 textures. Base: L: 30 cm - W: 22.5 cm. Made from WOOD.

Timio is an interactive, educational audio player. Easy to use, simply place a magnetic disc on the player and select an image to activate it. With this player, children listen to stories and lullables, music and sounds. They learn vocabulary, discover animal cries, vehicle noises and more. All in 8 different languages, ideal for developing your language skills! Consists of: 1 Timio player, 5 discs (Short stories, Farm animals, Classical music, Vehicles, Lullabies), 1 carry bag and 1 set of headphones. Requires 3 AAA batteries (not included). Ø 20 cm - th: 4 cm. Made from PLASTIC.

Matching games

GAME Match the animals Each player has a board showing the outlines of animals. The aim of the game is to find all the animals pictured on the board. Who will be the first to complete their board? Consists of: 25 animals (5 types and 5 different colours), 5 game boards, 1 animal die and 1 colour die. Game boards: L: 23.7 cm - W: 7 cm - th: 0.5 cm. Made from WOOD.

GAME Criterio Children need to match an animal with three criteria: its shadow, its colour and its size. Each card shows an animal's silhouette, which encourages players to quickly identify the corresponding characteristics. This game features a self-correcting system, since the solution is provided on the back of the cards, so that children can learn on their own. Consists of: 48 cards, 4 colour tokens, 4 animal shadow tokens, 3 size tokens and 1 board. Base: L: 20 - 16 cm. Made from CARDBOARD.

71 127

GAME Bodyco A body-based game to help children learn and understand the parts of the body. Players take turns spinning the needle on the wheel. The needle points to a body part that children have to name and place correctly to reproduce their model card. The fastest player is the winner! Consists of: 1 wheel, 36 silhouette cards and 6 models. Wheel: Ø 16 cm. Made from CARDBOARD.

Tactile bingo games

TACTILE BINGO Materials An original, tactile bingo game! Children explore the different board surfaces (prickly, smooth, rough, woolly or furry) before pairing the pictures with the right texture. This game helps develop sensory awareness. Consists of: 5 tactile cards and 30 illustrated cards. Tactile cards: L: 22 cm - W: 18 cm. Made from CARDBOARD.

70 149

M + 3 years

TACTILE BINGO Farm An early-learning tactile recognition game on the theme of the farm. In addition to developing tactile sensitivity, this game also addresses nature-related vocabulary: animals, vegetables and insects, etc. Consists of: 15 figurines and 1 spinner. Ø 21 cm Made from CARDBOARD and RUBBER.

57 753

ODOUR MEMORY LOTTO GAME 30 SCENTS

L: 34cm - W: 28cm - H: 4cm.

Visual recognition and speed games

Search and find games encourage children to concentrate and observe, while enriching their vocabulary and stimulating their spatial awareness (above, below, left, right, etc.).

A + 3 years

GAME My first search and find - Animals After drawing a card, players roll the die and work together to search the board for the element to find, as many times as the number on the die. The 4-board tray can be reversed for more variety! Panel: Side: 11.5 cm. Made from CARDBOARD.

Beware the mole SPEED GAME The aim of the game is to fill the basket with 4 different vegetables before your opponents, but beware of the mole who settles in and starts to dig his molehill! This game helps children to learn colours and develop a sense of observation. Base: L: 24 cm - W: 22.5 cm - th: 1 cm. Made from WOOD.

55 447

OBSERVATION GAME Where are you hiding A game of observation and speed, where players need to be the first to find the picture on the drawn card. Watch out for the traps! Box: H: 15.5 cm - Ø 15 cm. Pieces: Side: 3 cm.

70 436

Made from WOOD.

GAME Hit the shape After rolling the die, players quickly tap their hammers to retrieve the corresponding token. Beware: if you hit the wrong shape or colour, you'll lose the tokens. The first player to collect all the colours wins the game. Speed and attention are the keys to winning this dynamic game. Base: L: 38 cm - W: 15.5 cm. Batons: L: 19.5 cm. Marbles: Ø 1.8 cm. Made from WOOD.

69 777

Tempo Toni OBSERVATION GAME Each player has a board. Using the cheese, they have to find the same combination as the card displayed in the middle of the table in order to win the most cards. This game develops concentration and is also an introduction to adding up. Base: Side: 21 cm. Made from WOOD and

55 363

GAME Zoo run A cooperative mode where children must help the animals escape from the zoo. They'll need to be very observant to match as many silhouettes as possible and free the animals. But watch out for the keeper, who is never far away! A competitive mode where players take part in a go-karting race. Observation and strategy will be key to finding the best combinations and hurtling to victory! Base: L: 22 cm - W: 20 cm. Made from CARDBOARD.

GAME Bamboo rapido To win, players need to be the first to collect the coloured beads using the bamboo tube in the order shown on the challenge card. A game of speed, observation and dexterity for hours of fun guaranteed! Bamboo tube: Ø 2.5 cm - H: 14 cm. Made from BAMBOO and LAMINATED CARDBOARD.

+ 6 years

GAME Kezao In this colourful observation game, players try to be the quickest to get rid of their cards. To do so, they need to follow the colour combination displayed by the dice. A quick and easy game that encourages visual observation and concentration. Consists of: 60 cards, 2 x 6-colour dice, 2 x crossed-out 6-colour dice and 1 x 3-symbol die. Cards: L: 9 cm - W: 6 cm. Dice: Side: 1.7 cm. Made from Cardstock PAPER.

69 791

GAME Little battle This game reinvents the traditional battle game to the backdrop of a treasure hunt. First of all, the explorers hire their crew by carefully choosing their Pirate cards from those circulating among the players! They then set off in search of the treasure, and if they are after the same one, a battle will ensue! But beware of surprises! Not all chests are filled with gold. Cards: L: 8.8 cm -W: 5.7 cm. Made from CARDBOARD.

STACKING NUMBERS This multi-activity set will help children understand the value of numbers by stacking and visualising them, arrange them by size or in ascending order, do their first sums and learn numbers with their fingertips! Consists of: 34 pieces and 1 ruler. 10: L: 10 cm - W: 4 cm - th: 3 cm. Made from

67 194

+ 3 years

HOLLOW FIGURES + MARBLES With the directions on the numbers, children follow the arrows with their finger and learn early writing techniques. For a more mathematical approach, they have fun placing the appropriate amount of marbles in the numbers and learn the basics of counting. Consists of: 11 numbers and 60 marbles. The 0: L: 4.3 cm - W: 1 cm - H: 7 cm. Made from WOOD.

new

CUT-OUT NUMBERS AND TOKENS This set contains 10 numbers and 55 red tokens for matching quantities, classifying and highlighting odd and even numbers. Consists of: 10 numbers, 55 tokens and 1 storage box. Tokens: Ø 2 cm. Numbers: L: 4 cm th: 3 mm. Box: L: 18 cm - W: 8.5 cm - H: 3.7 cm. Made from WOOD.

70 251

Included: 4 educational

+ 2 years LADYBIRDS Count from 0 to 20 These sensory ladybirds are a great introduction to numbers 0 to 20, odd and even numbers, and addition and subtraction with debossed dots for children to discover with their fingertips! Consists of: 11 pairs of ladybirds. L: 5 cm - W: 3.5 cm. Made from RESIN and STONE.

70 210 pack of 22

+ 2 years ACTIVITY CARDS For ladybird pebbles L: 27.5 cm - W: 21 cm. Made from PLASTIC. pack of 16

NUMBER ABACUS

This original wooden game introduces geometric shapes and numbers from 1 to 10 using a lift-out puzzle, as well as the concepts of quantity and colour using an abacus! Consists of: 1 board, 10 numbers, 10 shapes, 10 sticks and 35 rings.

ASSORTMENT of 10 colours and 10 geometric shapes.
Panel: L: 42 cm - W: 15 cm - th: 1 cm. Made from WOOD.

70 303 set

+ 3 years **new** TACTILE BOARDS Numbers from 1 to 10

This complete set offers an original approach to introducing the mathematical basics while boosting

High quality: made entirely of wood

From eco-ma

From eco-managed forests

+ 18 months

Figures and quantities ABACUS This self-correcting educational game helps children count to 10. The bases indicate the number in four different ways: a number, a dice, constellations and a numerical pattern. The child must stack the number of pebbles corresponding to the number set out on the base. Consists of: 10 cubes and 55 pebbles. Cube: side: 5 cm – Pebble: Ø 4cm – W: 1 cm. Made from WOOD.

62 813 s

+ 3 years **new**EDUCATIONAL SET FOR SORTING AND COUNTING FROM 1 TO 10

This complete set offers an original approach to mathematical basics! Each tray is numbered from 1 to 10 with a sorting compartment and a corresponding number of holes. Using fine motor skills, children insert the wooden figures into the holes while counting. To learn while having fun! Boards: L: 19.5 cm - W: 14 cm - th: 2.5 cm. Counters: L: 4 cm - Ø 1.5 cm. Made from Bamboo

Organisation and time management

In their fast-paced daily life, children need markers and visual organisation tools to create a routine and better understand the events of the day ahead. The more self-sufficient the child becomes, the more confident he becomes.

Leni CASSAGNETTES, Mistress E and blogger at Maîtresseuh.

The Time Timer is a reassuring tool for autistic children (or PDD), from 3 years. By materializing time, it allows them to anticipate changes in activities or places which are often a source of stress.

For a visual

+ 5 years **CODING ACTIVITY** Let's Go Code initiation

Played in a real-life context, this coding game is perfect to introduce children to programming and coding (STEM) without electronics. This game teaches children coding through kinaesthetic movements, helping them to concentrate, retain information and self-correct their mistakes. In groups, they prepare a series of steps which must be followed by another child according to their instructions. Obstacles can be added to increase the level. Consists of: 20 double-sided coding cards, 20 maze mats, 2 robots and 8 "special" cards. Coding card: Side: 12.7 cm. Made from FOAM. Supplied with an educational booklet. 58 038 set

+ 5 years

INTRODUCTION TO CODING With dots Guided by one player, the other player must successfully transpose a sequence or series of arrows into a number of dots. Consists of: 2 game boards, 1 partition wall, 2 wooden card holders, 68 laminated cards and 1 educational booklet. Tray side 19 cm.

Made from PLASTIC 65 664

new **Cubetto ROBOT**

+ 3 years

No waves, no screens!

An educational wooden robot, the Cubetto invites children to learn the basics of programming through play and imagination, thanks to a highly intuitive control panel. Inspired by Montessori teaching methods and the LOGO language, it's particularly suited to beginners: move forward, backward, turn left and right and repeat a sequence, all without internet access or a screen!

Ready to play: no WiFi, no Internet, no apps! No setup required!

Intuitive: control panel with direction blocks to place Silent

A Cubetto robot PROGRAMMING SET

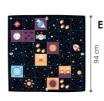

Consists of: 1 Cubetto robot, 1 control panel, 16 direction blocks, 1 activity mat and 1 educational guide. Power supply: Requires 6 x AA batteries (not included). Robot: L: 11 cm - W: 11 cm -H: 8.7 cm. Mat: L: 94 cm - W: 94 cm. Made from WOOD and PLASTIC (robot), POLYESTER (mat). 71 031 set

You can add direction blocks and logic blocks and vary the activities with Cubetto themed mats.

CUBETTO ACTIVITY MAT Consists of: 1 mat and 1 activity guide. L: 94 cm - W: 94 cm. Made from 100% Polyester. Washable using a soft cloth in cold soapy water.

CODING ACTIVITY Code&Go Mouse

Through this game, children must build a maze based on model activity cards and then use the programming cards to create a step-by-step path so that the programmable mouse finds the piece of cheese.

A fun way to introduce children to the pleasure of coding and problem solving!

For the more experienced user, it is possible to use the mouse on any type of surface by creating its own maze with everyday objects.

Distance of each movement: 10cm and 90° rotation. Consists of: 30 programming

cards, 16 labyrinth boards, 22 separation pieces, 10 double-sided model activity cards (20 courses to be created), 3 tunnels, 1 piece of cheese, 1 programmable mouse. The mouse requires 3 x AAA batteries (not included). The mouse: L: 11 cm - W: 7 cm - H: 5 cm. 1 labyrinth board: L: 12.4 cm - W: 12.4 cm.

Percussion instruments

Aiming for a more structured and melodic instrumental practice: metallophones and glockenspiels feature a resonance box. They produce crystalline, metallic sounds thanks to the material of the keys and the "colour" of the sounds.

Due to its special vibrating plates system, the stool creates a snare or bass sound depending on where you place your hand: the front centre of the stool makes a bass sound while the front top forms a snare sound. It offers users a playful first introduction to the world of music. After only a few minutes, a child is able to play different rhythms. L: 28 cm - W: 26 cm - H: 24 cm. Made from WOOD. Comes assembled.

Complies with standard NFS 54-300 : motor activity safety

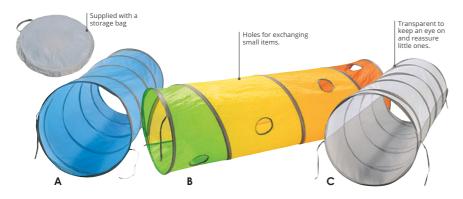

Washable with a sponge.

Supplied with a storage bag

Pop Up Bivouac range Let's get exploring!

As its name suggests, this Pop Up set, comprising a tent and ultra-light tunnels, is easy to put up and fold away. Practical and portable, they're ideal for small indoor spaces or temporary use. With the Pop up tent, the possibilities are endless: a cosy space for taking refuge and dreaming up stories, a ball pool, etc. And to offer an additional overall motor experience, the cabins can be connected with tunnels to form passageways that children love to slide through.

Each side is transparent, letting the light in and giving the child a view of the outside world.

Folds up in a second and stows away a bag in a flash. Has links to connect the tunnels together.

+ 12 months

MOTOR SKILLS TUNNEL L: 150 cm − Ø 50 cm. Made from SYNTHETIC FABRIC. Washable with a sponge. Indoor and outdoor use.

POP UP BIVOUAC CABIN KIT with balls Consists of: 1 bivouac cabin, 250 transparent balls and 250 opaque balls.

Ball pools

Children love falling into, playing and relaxing in our ball pools. Through play, they become aware of their bodies, develop motor skills and learn to play together.

A "Made In France" product: Manufactured, sewn and assembled in our activities in Sablé sur Sarthe, our ball pools have been developed through our unique knowledge, ensuring optimum quality and safety for children.

Resistant: Highly resistant vinyl fabric.

24 kg/m³ foam: long-lasting and durable, will not lose its shape. Hygienic: the vinyl fabric is easy to clean with either a soft cloth or sponge and cold soapy water.

Each ball pool has a base mat.

Quick installation: Each component is fitted with Velcro strips from top to bottom (except the "Lotus" range which has zip

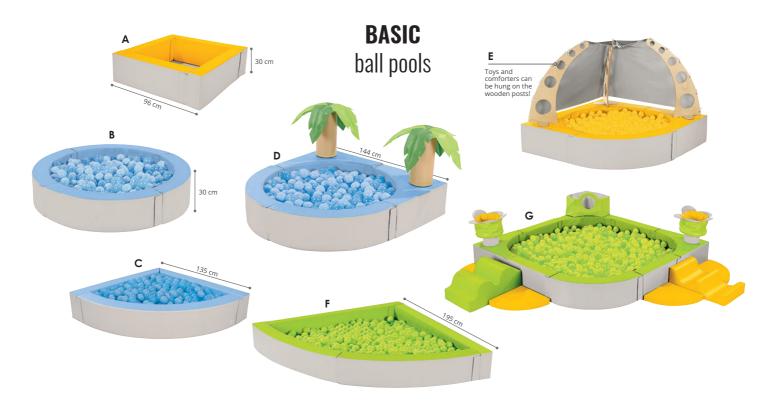

Ball pools have benefits that are therapeutic, relaxing and sensory, with a kinaesthetic aspect (position and movement of the various parts o f the body). Ball pools also allow development in an unstable but safe environment.

Children need

movement!

Quality first!

Crawl, climb, slide, balance...
Children can move around our courses in complete safety, designed to withstand thousands of children!

Very resistant vinyl fabric, easy to clean. 24 kg/m³ foam: long-lasting and durable, will not lose its shape.

Firm, comfortable foam: 24 kg/m³ density polyether foam for superior longevity over time: won't sag.

Hygienic: vinyl fabric is easy to clean with a cloth or soft sponge and cold soapy water.

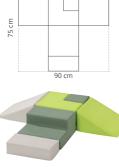

Highly resistant fabric: Vinyl fabric on a jersey support, stitched all round with extra strong nylon thread. This coating does not burn children's skin through friction. Ultra-resistant seams: All our modules are sewn, with no zip fastenings, to avoid injuring children. Our "embroidered" stitching seals the modules, and prevents children from getting inside them.

The meeting point

Play area

Decofoam range

As children sit, crawl and jump on these Decofoam play items, they exercise both their imagination and their motor skills. Self-identification, body awareness and expression using language form the basis of the essential educational benefits of the Decofoam range. Children identify with the characters driving a racing car, riding animals, etc. The larger Decofoam items can be used by several children at once!

MOTOR SKII

BABIxplore Range

Complies with standard NFS 54-300: motor activity safety Phthalate-free.

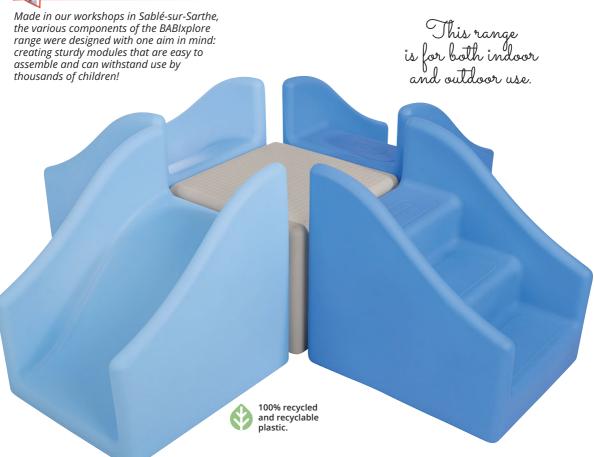

+ 12 months for use under adult

Create

ultra-slurdy modular courses!

Christelle. **Designer at Wesco**

Sturdy and safe:

These very strong plastic modules can support a child's weight. No sharp edges. For indoor/outdoor use. The components are manufactured with guardrails to keep children safe.

Easy assembly:

For added safety, the parts are easy to assemble and stay together without the need for additional connecting pieces. Upper surface is textured and non-slip.

Hygienic:

Easy to clean.

This motor skills equipment to be used in supervised educational activities, led by qualified professionals.

Thrilling courses for little explorers!

BABIxplore helps toddlers improve their motor coordination and body awareness. Children climb and clamber through BABIxplore sequences, experiencing the sensation of height and exploring the world from a different viewpoint. Sliding offers fun new sensations as they move through the courses secured with side guards.

new TACTIK **SCOGYM range**

2 to 8 years for use under adult

Enjoy new sensory experiences! Two heights for a progressive experience!

Compatible with our previous Scogym range

Evolution, the new version of SCOGYM, was designed to be easier to handle, more stable and more complete! Designed for children to develop new motor skills in a fun way. By developing in complete confidence, without focusing on performance, children progress at their own pace, with no pressure!

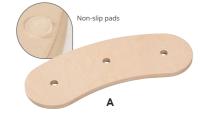

These courses help to develop balance, coordination and spatial awareness. This motor skills learning is combined with sensory, visual and tactile stimulation.

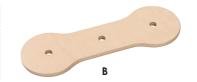

Level 1: **GROUND** level sensory courses

Coordination activities

Riding the inflatable Rody, children will be in a relaxed and balanced body position. By holding firmly onto the two ears and moving their legs, children can have fun playing chase. The hopping movement will develop their body awareness. Children can move around freely, exploring their environment and negotiating any obstacles around them.

Motor skills activity mats

A wide range of mats for all your activities!

A SOFT FOAM MAT

p. 786 and 788

For receiving and cushioning jumps.
High flexibility and important cushioning for optimal shock absorption.

Made from polyether or polyurethane foam.

B FLEXIBLE, THICK FOAM MATS

page 786

Promotes free movement. Very flexible to mould to the shape of the floor.

Very stable when walked on. Made from polyether or polyurethane foam.

E FIRM FOAM MAT

p. 785 and 787
For floor exercises (gymnastics, dance, etc.) and wrestling games.
Ultra-firm (like a judo mat).
Lightweight.
Equipped with non-slip underside.

All our mats have a non-slip base and a jersey-lined vinyl fabric covering. Soft to the touch, and easy to clean, they are also hypoallergenic and do not contain phthalates.

Goalball

Goalball is played blindfolded in order to respect sporting fairness. The game consists in rolling the ball from its launch zone towards the opponent's goal. Opposing players must stop the ball with any part of their body. If the ball is blocked or goes out, the defenders become attackers and have 8 seconds to make a pass or a shot.

OPAQUE MASKS L: 18 cm - W: 12.5 cm.

46 492

GOALBALL BALL with bells Made from DENSE FOAM. Indoor and

Ø 21 cm 45 825

Tchoukball

Tchoukball is a non-contact sport, which reduces the risk of injury. A cross between handball and volleyball, the game involves moving the ball forward using no more than three passes in order to bounce it off the frame without the opposition being able to catch it. Ideal for handling exercises or for developing reflexes.

TCHOUKBALL TARGET Ideal for practising tchoukball, this target can also be used for advanced exercises (technical work of football goalkeepers, throwing and receiving volleyballs or handballs, etc.). Adjustable tilt. Comes assembled. Side: 100cm. Made from epoxy finished STEEL.

54 026

Ultimate Frisbee

Ultimate Frisbee is a team activity coordination involving cooperation and based on the principle of discus throwing. It enables children to develop psychological, motor and cognitive skills such as understanding and respecting game rules, developing their capacity for perception and anticipation, and how to operate and implement a group strategy.

- > Game area: 20 x 40 m
- > Number of players: 2 teams of 6 players
- > Game time: the duration of a match is not fixed. The winning team is the team who reaches a set amount of points first (usually the first team to reach 10 points).

Schildkrot Roundnet

4 players are divided into teams A and B around the roundnet to compete against one another. To begin, a player from team A serves to a player from team B who is allowed to touch the ball three times and hit it into the net. The players can move freely, always around the net, and win a point when the opposing team doesn't return the ball and it falls to the ground.

+ 6 years

SCHILDKROT ROUNDNET GAME First player/team to score 21 points with a 2-point margin. Consists of: 5 arches, 5 feet, 1 net, 1 training ball (Ø 11 cm), 2 competition balls (Ø 9 cm) and 1 ball pump with needle. Ø 90 cm - H: 20 cm. Weight: 1.4 kg. Made from PLASTIC. Indoor and outdoor use. Delivered in a storage bag.

Tennis

Choose your racket wisely!

The racket size is selected as follows: the child stands upright, his arm along his body, and holds the racket by the handle. The racket head should be level with the child's ankles, without touching the ground. Racket length varies from 43 to 58 cm for children. The size of racket chosen affects manoeuvrability, control and racket power. We have rackets for all ages: the size of the racket head and handle length vary according to the size of the child.

ADAPTABLE TENNIS KIT Consists of: 5 ultra-light balls, 6 Ø 6.5 cm balls, 6 Ø 7.5 cm balls and 6 Ø 7 cm soft tennis balls. Ball; Ø 23 cm - Weight: 80 g. Balls: Ø 7.5 cm - Weight: 15 g. Balls: Ø 6.5 cm - Weight: 44 g.

THUNDER, STORM, FLASH, LIGHTNING WHEELED TOYS

Featuring Wesco's exclusive design, our wheeled toy ranges have been created to withstand intensive use by groups of children.

New rugged eco-friendly design: improved use of materials, while preserving the superior quality and safety that have forged our reputation. By choosing to manufacture all our products in Europe and overhauling the production cycle for Wesco's wheeled toys,

> we are reducing the carbon footprint of this range by 30%.

Find our helmets and protective gear page 842

Versatile and safe,

there is a ride-on and colour for every age!

From a very young age, it's important for children to move, play, share and explore and in so doing improve body awareness. Adapted to the child's age and abilities, our ride-ons enable progressive learning, from balance control through to the first strokes of the pedals by our future responsible road users.

Thunder wheeled toys: Storm wheeled toys:

for children between the ages of 14 and 30 months (size: 75 to 100 cm)

for children between the ages of 2 and 4 years (size: 90 to 119 cm)

Flash and Lightning wheeled toys: for children

over 2 years old (size from 105 cm)

All our products must be used under adult supervision..

for use under adult supervision

Sturdy: solid Douglas wood that is naturally resistant to most insect and fungi attacks. The 20-mm thick wooden slats offer a high degree of mechanical resistance during bad weather.

Features: modular outdoor furniture at child height. To ensure the durability of the wood, it must be maintained.

Sourced from sustainably managed forests. Responsible delivery.

Elements range

Learn while having fun with nature

The health benefits of fresh air are well-known, and what fun it is to play in this limitless space. Our highly resistant "Elements" range offers a range of activities to learn with the elements of nature. Watching, experimenting, imagining, building, sharing and organising group activities to awaken all the senses!

A full-size adventure!

Depending on your surface, we offer 2 types of installation:

To be mounted The mounting plates are suitable for use on surfaces that are hard, thick and flat: concrete, thick asphalt, etc. This type of installation requires the laying of a cushioned surface.

To seal

The ground anchors are designed for installing your structure on soft ground: sand, gravel, turf, etc. Well-made and long-lasting play structures to be installed by a professional.

to **request** a **quote** or place an **order**.

Contact our sales department

delivered within 15 working days. Comes unassembled.

Contact our sales department

for **assembly** and installation on soft surfaces.

Types of absorbent floor to be used based on the height of the fall

For a drop height of up to 60 cm, shock-absorbent floor materials are not required, except in the case of rotating and spring-loaded devices. Natural ground (earth and grass) is sufficient up to a drop height of 1 m, provided that the substrate is free of gravel and debris.

Materials	Materials Description		FFH (Free Fall Height)
Turf / Natural compost	Well-maintained surface (no holes in the turf)	/	≤ 100 cm ≤
	Grain size between	30 cm	200 cm ≤
Fragments of bark	20 and 80 mm	40 cm	300 cm ≤
	a : -i between	30 cm	200 cm ≤
Wood shavings	Grain size between 5 and 30 mm	40 cm	300 cm ≤
	a : -: between	30 cm	200 cm ≤
Sand without clay or sediment	Grain size between 0.2 and 2 mm	40 cm	300 cm ≤
		30 cm	200 cm ≤
Gravel	Grain size between 2 and 8 mm	40 cm	300 cm
Other materials such as synthetic cushioned surfaces	Critical drop heigh on the HCl te (refer to the current EN 1	Drop height as tested	

We'll be happy to advise you on this matter.

and tubular metal for increased strength. **Safe:** risk assessment conducted by an independent verification body with reference to the standard on community playground equipment and sports equipment NF EN 1176-1. The edges are rounded for increased safety. Functional: structures designed for play areas and playgrounds, highly accessible and high strength.

In accordance with norm EN 1176-1

Structure delivered within 15 working days. Comes unassembled.

Contact our sales department for assembly and installation on soft surfaces.

GAYA Range - Outdoor Play Modules

18 months to 12 years old for use under adult supervision

Created for play, designed to last

These outdoor games modules have been designed to create fun and visually appealing places where children can immerse themselves in their own world: from outer space to tiny worlds, in medieval times or in the plant world. Our explorers can easily use their imagination to bring these settings to life safely. Under the compulsory supervision of an adult, children have fun while developing their physical skills and curiosity by climbing, sliding and discovering transparency (portholes) and a sense of height and risk (walking, slope and slide).

Climbing to new heights

Children often enjoy being high up. It gives them a chance to tower over people and see the world from a different angle.

Crawl, explore...

Children can satisfy their curiosity by going over, or under and exploring.

Slide...

Sliding offers children new and fun sensations.

Outdoor play areas -

18 months to 6 years for use under adult supervision

ELYO range

Conceived for optimal use of space, designed for play

When the end-of-class bell rings, children all rush out onto the playground...

Some jump on bikes, play ball games, or hopscotch - they need to move!

Others tend to seek calm and prefer to be alone for a while; not forgetting the very young who try their best to avoid getting accidentally pushed or shoved by the older children.

We designed the Elyo range specifically so that every child can benefit from hassle-free break times and to make supervising easier for you.

It can be used to delimit and organise areas dedicated to different activities.

Sturdy: use of powder coated and hot-dip galvanised metal for the tree shade structures and rotational moulding for the barriers and benches.

Safe: risk assessment conducted by an independent safety firm. Functional: creation of evolving and flexible space adapted to the layout of the playground area.

Option to create a central sand play area

ELYO barriers

Elyo BARRIER Consists of: 1 barrier panel, 4 feet and fixings. Ground space: L: 123 cm - W: 58 cm - Barrier H: 80 cm. Made from thick POLYETHYLENE. Supplied with mounting screws. Choice of colours: BLUE (002) - LIGHT GREEN (037)

PACK of 4 Elyo BARRIERS Consists of: 4 barrier panels, 12 feet and fixings. L. total: 473 cm. Made from thick POLYETHYLENE. Supplied with mounting screws. Choice of colours: BLUE (002) - LIGHT GREEN (037)

Ublo WALL ATTACHMENT L: 7.5cm - W: 4cm - H: 42cm. Made from thick POLYETHYLENE, Indoor and outdoor use, Colours LIGHT GREY (180)

Christelle, Designer at Wesco

What does "class IV autoclaved wood, natural saturation" mean?
This means that the wood has undergone a deep treatment to protect it against environmental damage, such as insects and fungi, which can cause the material to deteriorate. The wood has natural saturation to protect the surface colour. The hardware and fixings have had an anticorrosive treatment. So, the playground is the perfect location for our Kids benches!

Wesco design

5 YEAR GUARANTEE

Delivered flat-packed, do-it-yourself installation.

Ultra-sturdy: weather-resistant materials. **Sleek design and authentic style** to match any exterior.

Textured paint and natural-looking metal.

Metal materials used are 60% recycled. Flat delivery to limit the impact on the environment.

+ 3 years

Children will love to sit on the Kids benches for long chats at break time! Made from Class IV autoclaved WOOD, natural saturation (seat and backrest) and epoxy finished METAL (frame). Can be anchored to the ground. Outdoor use Delivered flat-packed, do-it-yourself installation.
